6/29/68

Dear Mr. Johnson,

I have just noticed that the copy of the executive-session transcript of the meeting of January 21 made for me is a gap in it. The pages go from 66 to 74, without a slip indicating anything is withheld.

Therefore, I am missing pages 67 through 73, inclusive.

I would appreciate them at your earliest convenience. I expect to be in Washington about Wednesday, as we discussed. If you will have the microfilm ready for me to pick up then and I can get these pages then, that will be fine. If the microfilm will not be ready I will not go to the Archives and I would appreciate it if you would mail these pages to me.

Thank you very much.

Sincerely,

Harold Weisberg
